

## Features & Benefits

### PROGRAM HIGHLIGHTS

**Three-Dimensional  
Phenomena-Based  
Approach**

**Designed for  
Equitable Science  
Learning**

**Total Support  
For Teachers**

The Activate Learning Certified Versions stay **true to the original, researched, and field-tested OpenSciEd content**, ensuring the same high-quality, authentic learning experiences that were validated through years of classroom testing.

## Meet the Activate Learning Certified OpenSciEd 6–12 Curriculum

### EdReports All-Green Rating

The Activate Learning Certified Version of OpenSciEd 6–8 curriculum has earned the esteemed **"all-green"** rating from EdReports, a leading nonprofit organization that evaluates instructional materials for alignment to college and career-ready standards and other markers of quality.

OpenSciEd High School Biology, Chemistry, and Physics have been officially reviewed by EdReports—and all three courses meet expectations in all three gateways for high-quality instructional materials!

### High Quality Instructional Materials (HQIM)

Through investigations, modeling, and data analysis, students build deeper scientific understanding, supporting all three dimensions of the **Mississippi College-and Career-Readiness Standards for Science**.

### Phenomena Based & Driven by Evidence

Courses begin with real-world phenomena that spark student questions. An anchoring phenomenon and related phenomena motivate building ideas over time. Students seek and use evidence to figure out phenomena as they build new science ideas.

### Investigation-Centered

Hands-on investigation approach ensures rich, inquiry-based experiences, not teacher demonstrations, teachers act as facilitators and students drive learning.

# Features & Benefits

*Why Choose the Activate Learning Certified OpenSciEd 6–12 Curriculum?*

## We're Your All-In-One Partner

### Print Materials & Notebooks

Save prep time with full-color print Teacher Editions for each unit of the OpenSciEd curriculum.

**Student Notebooks** included with all handouts, reference sheets, and readings.

### Digital Platform & Assessments

All content is organized for teachers in one place, and language supports are included for students.

**Insight Assessments** integrate seamlessly and auto-scoring saves teachers valuable time!

### Complete Science Kits

Kits for hands-on investigations for all OpenSciEd units, grouped by lesson and prepared for teachers!

**Virtual Investigations** provide support for absent students and reliable content review.

### Professional Learning

Full implementation support and personalized professional learning for educators.

**Customer Success Specialists** work closely with teachers to provide ongoing support.
