

Activate Learning®

OpenSciEd 6–12

Free with Order

For Mississippi Science Educators

The Activate Learning Certified versions of OpenSciEd for Middle School and High School offer Mississippi educators a research-based, field-tested, standards-aligned program designed to engage *every* student — with the bonus of robust implementation support.

Activate Learning science kits provide all the materials needed for OpenSciEd investigations, and all products are rigorously tested for quality assurance.

Activate Learning OpenSciEd 6–12 Science Kits Include:

Free Teacher Portal Digital Access

Receive **Free** Digital Teacher Portal Access with the Purchase of Classroom Science Kits!

Watch this [short video](#) to see benefits for teachers.

Free Print Teacher Edition Books

Receive **Free** Print Teacher Edition Books with the Purchase of Classroom Science Kits!

Teacher Time Saver Packs

Materials are prepped for teachers, saving teachers valuable time and reducing the need to print, cut, and laminate game boards and pieces.

Time Saver Packs include prepared bath bomb recipes, pre-cut light boxes, and painted cups for Middle School kits.

Lesson Bags

Classroom kits come bagged by lesson for convenience, saving teachers valuable prep time.

Activate Learning Kit Companion™

Scan the QR code on the outside of the tote to quickly view Activate Learning Kit Companion™. Easily view everything in your shipment, quickly access important Safety Data Sheets, and view how-to videos to set up materials.

Kits Materials for ALL Students, for ALL Investigations

Activate Learning kits provide you with enough materials for students to do ALL of the investigations in OpenSciEd! No investigation defaults to a teacher demo or video due to a shortage of supplied materials.

Students benefit from hands-on classroom science experiences and sensemaking opportunities.
